GLOBAL MARKETS

Asian shares scaled four-month peaks on Monday as investors counted on super-cheap liquidity and fiscal stimulus to sustain the global economic recovery, even as surging coronavirus cases delayed re-openings across the United States.

Shares in Shanghai surged more than 4% on strong volume, amid positive commentary on the market from state media. Benchmarks in Tokyo, Hong Kong and Seoul were also higher. US equity futures climbed with markets due to reopen after a holiday.

Australian shares underperformed as authorities ramped up efforts to control outbreaks in Melbourne. The WHO reported a one-day high in global infections over the weekend with cases crossing 11.3 million.
CRUDE OIL

Oil prices offered up a mixed market snapshot on Monday, with Brent crude edging higher, supported by tighter supplies, while US benchmark WTI futures dropped on concern that a spike in coronavirus cases could curb oil demand in the United States.

Brent crude rose 11 cents, or 0.3%, to $42.91 a barrel after a 4.3% gain last week, while US West Texas Intermediate crude was at $40.35, down 30 cents, or 0.7%, from its previous settlement on Thursday. US markets were closed on Friday to mark July 4 holiday celebrations.

INDIAN RUPEE

The rupee jumped by 38 paise to settle at more than three-month high of 74.66 against the US dollar on Friday tracking weakness in the greenback and gains in domestic equities amid optimism over potential Covid-19 vaccine.

WEEK AHEAD
