(ii) FUTURE MARKET OUTLOOK

Equity Market Overview and Outlook

Nifty 50 Index ("Nifty") ended March 2018 with 10.2% gains as it wiped out majority of its gains in last quarter of financial year 2018. The financial year 2018 started on back of a strong performance of Indian equity indices. Equity as an asset class performed well across global markets. Low bond yields, weak real estate market, stagnant gold prices made domestic money flock to equity markets. Given the low penetration of financial assets in India, this trend can last longer.

Further to geopolitical tension, there were factors that kept a leash on positive sentiments like teething issues while implementation of GST and disruption which followed as some domestic businesses saw benign demand environment. So the year was split in four parts, the first was a rally from the low made towards the start of fiscal year which saw an 11.1% rise in Nifty by end of July 2017. This was followed by market consolidation till November 2017. Nifty then rallied by 8.9% from start of December till end of January 2018 as BJP victory in Gujarat and Haryana aided sentiment along with GST cut on some items, PSU Banks rallied on government's recapitalization plans. This was followed by a market correction which saw the Nifty drop (-8.2%) till March 2018 in anticipation

of rising crude oil prices and inflation. There was significant Foreign Institutional Investor ("FII") selling during this phase on back of Introduction of Long term capital gain tax (LTCG) in the budget, widening trade deficit and the unraveling of banking fraud.

Valuations on a one year forward basis have moderated compared to historical levels given that earnings growth is likely to be strong on a low base. In fact, for the last three years, earnings growth has been negligible. In the last two year periods earnings have been impacted by several factors like demonetization, GST implementation, slowdown in discretionary consumption especially because of supply side disruption and slow pick up in rural economy. The point of change for Indian market was the comeback of the domestic investor during this period. Domestic flows outpaced FII flows in last three years. In FY18, DIIs were significant buyers at \$17.7Bn, as against \$4.5b in FY17. Midcaps have struggled over the last few months, resulting in its underperformance versus large-caps. Over the last 12 months, midcaps have delivered 9% returns, as against 10.2% by the Nifty. However, over the last five years, midcaps have outperformed the Nifty by 75%. Real Estate (+39%), Private Banks (+24%), Technology (+17%), NBFC (+14%) and Metals (+13%) were the top outperformers for FY18. Healthcare (-14%), PSU Banks (-7%) and Utilities (-7%) were the laggards in FY18

Indian economy has started to recover from the cyclical and structural bottlenecks witnessed over the past two years as reflected in data and with improving corporate earnings. We can expect the economy to recover gradually in FY2019 as GST related disruptions smoothens and as consumption improves amid stable wages and expected payouts from states' implementation of 7th pay commission. Revival of consumption driven by rural wage growth, good monsoon, healthy MSP and higher visibility of direct benefit transfer are other positives. While the ongoing gradual improvement in private investment continues to provide hope of a revival in the capex cycle and improving global growth prospects is further expected to support growth. We can expect volatility at elevated levels in Fiscal 2019 especially given the market concerns about a potential global trade war after US initiated tariff actions on imports from certain countries. It looks like markets will continue to closely monitor election outcomes in few key states over next few quarters. Markets have something to cheer about with evidence of demand revival in select pockets points towards bottoming of macro data. We expect the economy to recover in Fiscal year 2019 as GST related disruption smoothens and consumption revives on back of normal monsoon, MSP hike and implementation of pay commission. After the recent correction valuations are now trading below long term average, with earnings bottoming out and cooling of bond yields things looked favorable for equity investments in India.

Debt Market Overview and Outlook

Indian government bonds had a very volatile year as far as FY 18 is concerned. The yield on the 10yr traded in the range of 6.85 to 7.00% after the Feb 2016 MPC policy in which the MPC decided to change the stance from accommodative to neutral. Since then yields on 10yr rallied from 7% to 6.4% as the actual CPI in the first half tracked much lower than the RBI projections of 4.5% and MPC reduced repo rate from 6.25% to 6% in the August policy keeping the stance neutral. The second half of FY 18 saw steep increases in the yields on 10year Gilts from 6.40% to 7.75% as surplus liquidity in the system came down due to higher currency in circulation, OMO sales done by RBI to suck out excess liquidity caused during demonetization, 2nd half inflation trajectory moving higher due implementation of HRA for central government employees and higher crude oil prices, upward movements in US rates, lower than expected GST number, Govt. announcement of additional market borrowings as it missed its fiscal deficit target and lower demand from Govt. bonds from banks.

March saw a much needed positive turnaround in the bond market, with the 10 year benchmark government bond (gsec) peaking at 7.78% in the first week of march, and gradually trending lower to finally end the month with a sharp rally towards 7.40%. With food prices collapsing, CPI for February surprised on the downside at 4.44% vs 4.70% expected by the market.

The biggest concern for the market has however been the demand supply mismatch for the FY19 borrowing program of GoI. With FinMin clearly taking up this cause (belatedly) and having multiple meetings with various bond market players, market expectations of meaningful action on this front started building up. Finally, towards the end of the month, the actual borrowing calendar turned out to be a huge positive surprise, with H1 borrowings cut down significantly versus expectations and importantly, issuance skewed towards the front end of the curve, thereby making the H1 supply very manageable. RBI allowing banks to spread over the losses on their HFT and AFS book in the 3rd and 4th qtr over 4 quarters also came as a huge relief to the banks. RBI increased the FPI limits from 5% to 6% over the next 2 years which is also a positive from the demand supply dynamics.

The 10yr Gsec has seen a extreme volatility in the first 2 weeks of April moving down from 7.40% to 7.10% in the first week of April based on positive news from Government and RBI. Markets however could not hold on to those levels retracing back to 7.50% in 3 trading sessions. We would caution investors not to get too carried away by any positive exuberance in bond markets and maintain fund allocations strictly within their risk appetite and limits, as this year we are likely to see wild swings in market expectations from one extreme to the other. From a medium term perspective, we believe the 10 year gsec yield is likely to hover in the 7.25-8% range in FY19. In the accrual fund segment, we believe the sweet spot continues to be the AA space, where yields are still quite attractive and credit risks well contained.

Trustee's and Management's Responsibility for the Financial Statements

2. The Trustee of L&T Mutual Fund and the Management of L&T Investment Management Limited (the "Management") are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Scheme in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto (the "Regulations"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence, about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our procedures included confirmation of securities owned and unit capital balances as at March 31, 2018 by correspondence with the custodian/others and registrar and transfer agent, respectively. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Trustee and the Management, as well as evaluating the overall presentation of the financial statements.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

6. In our opinion, and to the best of our information and according to the explanations given to us, the accompanying financial statements give the information required by the Regulations in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
- in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2018;
 - in the case of the Revenue Account, of the net surplus/deficit for the year/period ended on that date; and
 - in the case of the Cash Flow Statement, where applicable, of the cash flows for the year/period ended on that date.

Report on Other Legal and Regulatory Requirement

7. As required by section 55(4) of the Regulations, we report that:
- We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
 - In our opinion, the Balance Sheet, Revenue Account and Cash Flow Statement, where applicable, dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Regulations.
8. As required by clause 5 (ii)(2) of the Eleventh Schedule to the Regulations, we report that the Balance Sheet, Revenue Account, and Cash Flow Statement, where applicable, dealt with by this Report are in agreement with the books of account of the Scheme.
9. In our opinion, the methods used to value non-traded securities as at March 31, 2018, as determined by L&T Investment Management Limited under procedures approved by the Trustee of L&T Mutual Fund in accordance with the guidelines for valuation of securities for mutual funds as mentioned in the Eighth Schedule of the Regulations issued by the Securities and Exchange Board of India, are fair and reasonable.
