An open-ended short-term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 1 to 3 years.

Looking to invest in high credit quality fund without assuming high interest rate risk? Short term Bond fund is for you. This fund endeavors to strike an optimum balance between regular income and high liquidity while aiming to provide principal stability.

This balance is achieved through a judicious mix of short term debt and money market instruments. The Fund focuses on preserving capital while generating consistent income by investing in various types of investment grade debt securities.

Why invest in L&T Short Term Bond Fund?

L&T Short Term Bond Fund focuses on quality of portfolio with the objective of generating returns primarily through yield accruals, and additionally through capital gains, without taking too much interest rate risk. It focuses on investing primarily in debt securities that are at the shorter end of the yield curve, thereby reducing interest rate risk. L&T Short Term Bond Fund seeks to help investors earn reasonable returns by investing in instruments such that the Macaulay duration of the portfolio is between 1 to 3 years.

Key Benefits

Credit quality assurance – invests primarily in high credit quality securities through an in-house credit research team

Clear and consistent investment approach – return generation primarily through accrual to help strike a risk-return balance

Potential for superior risk adjusted returns – aims to reduce interest rate risk by investing the shorter end of the yield curve, riding the interest rate volatility
