# Notes to the Financial Statements for the year ended March 31, 2013

## 1 Significant Accounting Policies.

### A. Basis of Accounting

The financial statements of the company have been prepared in accordance with **Generally Accepted Accounting Principles in India (Indian GAAP)**. The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared on an accrual basis and under the historical cost convention.

### B. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

### C. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

- Income from services is recognized as per the terms of contracts on accrual basis.
- Interest income on deposits is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.
- Profit/loss on sale of investments is recognised at the time of actual sale/redemption.
- Dividend is accounted when the right to its receipt is established

### D. Income Taxes

Income tax expense is the aggregate amount of current tax expenses and deferred tax expenses. The current tax expenses and deferred tax expenses

is determined in accordance with the Provision of Income Tax Act, 1961 and as per Accounting Standards 22 – Accounting for Taxes on Income, respectively. Deferred tax adjustments comprise changes in deferred tax assets or liabilities during the year. Deferred tax assets and liabilities are recognized on a prudent basis for the future tax consequence of timing difference arising between the carrying values of assets and liabilities and their respective tax basis, and carry forward losses. Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantially enacted at the balance sheet date. The impact of changes in deferred tax assets and liabilities is recognized in the Statement of Profit and Loss.

Deferred tax assets are recognized and reassessed at each reporting date, based upon management's judgments as to whether their realization is reasonably certain.

### E. Provisions and Contingent Liabilities

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

### F. Cash and Cash Equivalents

Cash and Bank Balances that have insignificant risk of change in value including term deposits, which

# Notes to the Financial Statements for the year ended March 31, 2013

have original durations up to three months, are included in cash and cash equivalents in the Cash Flow Statement

## G. Tangible Assets

Tangible fixed assets are stated at cost of acquisition including any cost attributable for bringing the asset to its working condition, less accumulated depreciation.

## H. Investments

Investments are classified under two categories i.e. Current and Long Term and are valued in accordance with the Accounting Standard (AS) 13 on 'Accounting for Investments'.

'Long Term Investments' are carried at acquisition/ amortised cost. A provision is made for diminution other than temporary on an individual investment basis.

'Current Investments' are carried at the lower of cost or fair value on an individual investment basis.

## I. Depreciation and Amortisation

Depreciation/Amortization on fixed assets is calculated on a straight-line which reflect the management's estimate of the useful lives of respective fixed assets and are greater than or equal to the corresponding rate prescribed in Schedule XIV of the Companies Act, 1956.

## J. Earnings per share

Basic and diluted earnings per share are computed

in accordance with Accounting Standard-20 – Earnings per share.

Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share are computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

## K. Impairment of Assets

Tangible fixed assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount, which is the higher of the asset's net selling price or its value in use.

## L. Commitments

Commitments are future liabilities for contracted expenditure. Commitments are classified and disclosed as follows:-
