1.0 INTRODUCTION

1.1 Vigil Mechanism

Good governance is an integral part of the existence of a company. It inspires and strengthens investors' confidence by ensuring the company's commitment to higher goals and profits. This objective is achieved by adopting transparent procedures and practices, having in place effective machinery to address the concerns of all stakeholders, keeping shareholders informed about developments in the company and ensuring effective control over the affairs of the company.

The Company is committed to the highest possible standards of openness, probity, and accountability. In line with that commitment, we expect directors and employees that we deal with, to come forward and voice genuine concerns.

Keeping this in mind and to facilitate this process, the Company has formulated a Vigil Mechanism Framework to enable directors, employees and service providers to report genuine concerns about unethical behaviour, actual or suspected fraud or violation of Code of Conduct.
