Rupee falls 5 paise to close at 82.23 against US dollar

MUMBAI, July 31 (PTI)

THE rupee depreciated 5 paise to close at 82.23 (provisional) against the US dollar, tracking surging crude oil prices and a strong greenback against major rivals overseas.

Besides, month-end dollar demand from importers and foreign capital outflows weighed on the local currency, which found some cushion at a lower level due to positive sentiment in the domestic equity markets, forex traders said.

At the interbank foreign exchange, the domestic unit opened at 82.23. It finally settled at 82.23 (provisional) against the American currency, registering a fall of 5 paise against its previous close.

Gold down Rs 100, silver dips Rs 300

NEW DELHI, July 31 (PTI)

GOLD prices fell by Rs 100 to Rs 60,350 per 10 grams in the national capital on Monday amid a decline in the precious metal in global markets, according to HDFC Securities. The precious metal had closed at Rs 60,450 per 10 grams in the previous trade.

Silver also dropped by Rs 300 to Rs 76,700 per kilogramme. In the global market, gold and silver were quoting lower at USD 1,955 per ounce and USD 24.25 per ounce, respectively. Gold struggle to find direction after mixed US economic data that clouded the outlook for the Federal Reserve's likely rate path amid conjecture on whether its economy is running too hot or too cold. The dollar index sustained above 101 level and is currently trading up by 0.11 per cent.

GAIL's Q1 profit dives 51.5%

NEW DELHI, July 31 (PTI)

STATE-OWNED GAIL (India) Ltd on Monday reported a 51.5 per cent drop in June quarter net profit on weak earnings in the petrochemicals business as well as in the marketing of natural gas.

Standalone net profit of Rs 1,412 crore, or Rs 2.15 per share, in April-June (first quarter of current 2023-24 fiscal year) compared with Rs 2,915.19 crore, or Rs 4.38 a share, in the same period a year back, according to a company statement and stock exchange filing. Margin decline led to the firm booking a pre-tax loss of Rs 301 crore in the petrochemical business while earnings from natural gas marketing halved to Rs 1,013.63 crore.

Revenue dipped 14 per cent to Rs 32,227.47 crore. Quarter-on-quarter basis, net profit more than doubled when compared with Rs 603.52 crore earning in the three months of January to March 2023. This, it said, was "mainly on account of increased gas marketing and transmission volumes and increased transmission tariff realisation."

During April-June, GAIL transported 116.33 million standard cubic meters per day of gas, 7 per cent more than the preceding quarter. Gas marketing volume increased 2 per cent to 98.84 mmscmd.

Besides approving the financial results for the first quarter, the board of GAIL also gave its nod to increase cost of a petrochemical plant the firm is building at Usar in Raigad district of Maharashtra. The plant will now cost Rs 11,256 crore.

Maruti Suzuki to acquire Suzuki Motor Gujarat from Japanese parent co

NEW DELHI, July 31 (PTI)

MARUTI Suzuki India on Monday said its board has approved the acquisition of the entire stake in Suzuki Motor Gujarat from Japan-based parent Suzuki Motor Corporation.

Currently, Suzuki Motor Corporation (SMC) owns a 100 per cent stake in Suzuki Motor Gujarat (SMG) which supplies its entire production to Maruti Suzuki. Maruti Suzuki board in its meeting held on Monday approved the termination of the contract manufacturing agreement with SMG, the auto major said in a regulatory filing. The company's board also approved to exercise the option to acquire SMG stake from SMC subject to all legal and regulatory compliances including minority shareholders' approval.

The auto major expects to complete the transaction by

March 31, 2024. It noted that the mode of acquisition including consideration to be paid to SMC shall be decided in a subsequent board meeting.

With the growth of the Indian car market and export potential, Maruti Suzuki would need to increase its production capacity to about 40 lakh cars per annum by 2030-31, almost double from current levels, the auto major said elaborating on the rationale behind the development.

On the other hand, given the carbon neutrality requirements, several powertrain technologies like EVs, Hybrids, CNG, Ethanol etc. Will co-exist for a reasonably long period of time, MSI said. "Managing this scale and complexity of production with multiple powertrains, under different managements, would pose several challenges," the auto major stated.

The production growth in June, however, was at a five-month high. In January, the key sectors expanded at 9.7 per cent while in May 2023 the growth rate was 5 per cent.

The output growth of the eight sectors slowed down to 5.8 per cent in April-July 2023-24 against 13.9 per cent in the year-ago period.
